APPLICATION:

Our Multi Pond Flakes are suitable for all cold-water pond fish. Because the high-quality raw materials, these flakes are highly digestible. This product is a colourful mix of green, orange/brown and white flakes.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.
