PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

This extra light pond stick is suitable for every ornamental fish. Thanks to the easily digestible ingredients and the low specific gravity, your fish can be fed as much as they can eat.

Pond Sticks are enriched with wheat germ, which is rich in vitamin E.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.
