

- Winter feed
- High water stability
- Highly digestible
- Balanced nutrients

COMPOSITION:

Analyses (%)

Protein	30
Fat	9
Crude fibre	1,6
Ash	5,2

Sizes

4.5 mm
6.0 mm

Vitamins added

Vitamin A (IE/kg)	10000
-------------------	-------

PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Premium Coarse is a complete feed specially formulated for use during the winter period. Due to lower water temperatures, the metabolism of the pond fish slows down, and they are not willing to swim to the surface anymore. Therefore, we made Premium Coarse a sinking diet.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.
